INTRODUCTION

To the student,

Welcome to Higher School Certificate Course Assessment. All schools are required to submit assessment of student achievement to NESAs (NSW Education Standards Authority) at the end of the HSC Course whether it be a Board Developed Course or a Board Endorsed Course. These assessments are intended to measure your achievement and progress in each course in relation to syllabus standards.

In addition to the formal assessment program you will also be required to attempt other tasks, e.g. tests, essays, assignments etc., which will provide you with opportunities to practise your skills and to provide you and your teachers with information about your progress. These tasks are important and if you consistently fail to attempt such tasks you may not satisfy the HSC requirements for a particular course.

Murray High School's Assessment Policy and specific course guidelines for your formal assessment program are contained in this booklet. However, students enrolled in courses with Distance Education and/or TAFE, or other schools/colleges **must also follow the assessment procedures established by these institutions.**

To be eligible for the award of the HSC you must satisfactorily complete at least 12 units in your preliminary study pattern and **at least 10 units in your HSC study pattern.**

Both study patterns must include:

- at least 2 units of a Board Developed course in English
- at least 6 units of Board Developed courses
- at least three courses of 2-unit value or greater
- at least four subjects

What Is an Assessment Mark?

The assessment mark is a measure of your achievement in more than a single examination. It will be calculated from results on a series of tasks, which assess your abilities in a wider range of course outcomes than is measured by the external examination. These outcomes, weightings and types of tasks are listed in the subject guidelines contained in this booklet. They are also in keeping with the rules established by NESAs. The assessment requirements for each Board Developed course are set out in each syllabus. School-based assessment counts for 50% of your overall mark in each course and is reported on your HSC Record of School Achievement. You are required to complete school-based assessment tasks for the Board Developed and Board Endorsed HSC courses you study. (VET and Life Skills courses have different requirements).

What Will Happen to The Assessment Marks Submitted by The School?

The raw assessment marks provided by the school in any Board course are moderated. This means that the raw marks will be scaled so that they have the same mean and spread as the HSC exam marks scored by the school in that subject. However, the order of merit and the relative differences between students in the course will remain the same as that provided by the school.

Board Endorsed course (BEC) assessment marks will not be moderated. Your achievement in any BEC course in Year 12 is only measured against other students in the course at Murray High and your result will be the actual mark you obtained through the assessment process.

What Will Be on the HSC?

If you meet all the requirements, you will be awarded a Higher School Certificate. You will receive three documents, the HSC, the Record of Achievement and the Course Report. The certificate shows your name and school. NESA issues the HSC Record of Achievement to students who have satisfactorily completed any Preliminary or HSC courses. Students accumulating their courses will receive a Record of Achievement for each calendar year of study. HSC results of courses satisfactorily completed appear on the **HSC Record of Achievement** and on a **Course Report**.

Results of Board Developed Courses are recorded under the following headings on the **Record of Achievement**.

- A moderated Assessment Mark awarded for your assessment marks at school
- An Examination Mark awarded for the external examination.
- An HSC Mark - an average of the combined Examination Mark and the Assessment Mark
- A Performance Band - showing your level of achievement in that course.

This information will also be contained in a **Course Report**, which will be issued for each course completed. The report will include descriptions for each Performance Band which provide a summary of what students know and are able to do.

NB No assessment mark is shown for VET courses. For 240-hour VET courses an Examination Mark, HSC Mark and Performance Band will only be shown for students who have undertaken the optional HSC examination.

Students who satisfactorily complete VET HSC courses (including TAFE delivered Vet courses) will also receive an additional VET credential, which may be an AQF Certificate or a Statement of Attainment.

What About University Entrance?

Entry from Year 12 into university courses in Australia generally depends on your Australian Tertiary Admission Rank (ATAR). Some courses have additional selection methods such as an interview or portfolio.

The ATAR is calculated by universities, not NESA, and is reported on a scale of 0 to 99.95. Your ATAR indicates your position relative to the students who started high school with you.

To be eligible for the ATAR, you must study at least 10 units of Board Developed HSC courses (with a maximum of 1 category B subject). Details of ATAR requirements can be found in the Universities Admissions Centre (UAC) handbook or at <https://www.uac.edu.au/>

When Will I Be Assessed?

For all Board courses, formal assessment will not begin until after Week 4, Term 4

This booklet also contains a calendar which schedules the assessment tasks for different HSC course subjects.

Assessment tasks will not be set for completion in the week before the Trial Examinations.

What Will Be Assessed?

This booklet contains details about the assessment tasks for different courses that will measure your performance in each component of a course.

Information will be provided at least two weeks before the scheduled task, outlining:

- the components and their weightings
- when the assessment will take place
- the mark value of each task
- the nature of the assessment task e.g. test, assignment
- the task outcomes

When Will Assessment Tasks Be Handed In?

Assessment tasks which are completed at home **MUST** be handed to the faculty concerned **by 9.00am on the due date**, which will usually be a Monday. Other assessment tasks, i.e., those undertaken during class time and examinations, will be handed in at the end of the allocated time.

What Must I Do When I Hand in An Assessment Task?

For each assessment task, except examinations and tasks undertaken during class time, you will need to complete a "**Submission of Assessment Work**" form. These forms are available from the Front Office. This form will be signed by your teacher and the tear off section should be kept by you as your record of the task having been submitted.

Will I Know How I Am Achieving in Assessment Tasks?

Each assessment task will be returned to you with a mark or grade on it. Your teacher will also be able to tell you your position in the group in that task and provide relevant feedback and marking guidelines used to assess the intended outcomes.

When you think about your position in any task you should also think about the weighting of that task and its influence on your ranking in that course.

It is important to note that you **will NOT** be informed about your final assessment mark awarded by the school in each subject. However, you will receive an assessment rank reported on your Year 12 Mid-Course Report and your Trial HSC Report.

Can I Question the Marking of An Assessment Task?

As a general rule the teachers' judgements of an individual assessment task are not subject to review. However, if it appears that marks have been added incorrectly on your task, or if you have questions about how the marks were allocated, then you must ask the teacher about it when the task is handed back to you. If there has been a mistake it can be corrected at this stage but not later.

| |
|---|
| How Am I Notified of Assessment Tasks? |
|---|

You will be given written notification of assessment tasks at least two weeks before the date of the task. If you do not attend a lesson where an assessment task is notified, this will not give you an extension on the task. It is your responsibility to obtain any material, including assessment tasks, issued during the absence

If you know that you will be absent, it your responsibility to check your HSC Course Assessment Booklet to see if you have any assessment tasks coming up and to see your teacher regarding notification for these tasks. It is your responsibility to follow this procedure if you are going to be absent for any reason, including school authorised, such as work placements, TAFE and school excursions.

If you experience an illness or misadventure on the day when notification is given of an assessment task, this does not automatically give you an extension for the task. It is your responsibility to contact your teacher and seek the notification of the task. If you feel that you have been disadvantaged by illness or misadventure, then you may submit an Absence from Assessment Task form applying for an extension, accompanied by supporting documentation such as a medical certificate.

What Happens If I Fail to Hand in An Assessment Task on Time?

LATE SUBMISSION OF TASKS

It should be clearly understood that responsibility for submitting required work by the due date rests with you. NESAs requires that, *"If there is no valid reason for failing to complete an assessment task, a zero mark must be awarded for that task."*(NESA website). Submission or completion of tasks after the date due without legitimate reason will result in a student being awarded zero in that task and receiving an 'N' warning.

Where a student is absent on the day an assessment task is due either for medical reasons or for any other reason, a zero will be given initially and the student has the right to lodge an illness or misadventure appeal. If an illness or misadventure appeal is submitted and approved, the mark for the task will replace the zero.

For research tasks and/or projects that are completed over an extended period of time, every effort must be made to submit the task on the due date. This could include sending the completed task in by a parent or with a brother or sister, contacting the teacher directly to make a mutually suitable arrangement. Where you have been absent on the day the assessment task was due and the task was not handed in, due to illness or misadventure, the student must hand the task to their teacher on their **first** day of attendance.

SICKNESS

If you are absent for a task, you must bring in a medical certificate on the first day you return to school and give it to the Deputy Principal before roll call or signing in. If you fail to do this, you will receive a zero mark and an 'N' warning letter. When your sickness has been verified by a medical certificate, the Deputy Principal will arrange for you to sit for the missed task or an alternative task. Appeals due to illness only apply for illness that would affect your ability to complete the assessment task. They also do not cover long term illness, such as glandular fever, asthma or epilepsy – unless there is evidence of a sudden recurrence during the time of the assessment task. (Higher School Certificate Rules and Procedures)

MISADVENTURE

Where you claim a “misadventure” has caused you to miss doing a task you must get a misadventure claim form from the Deputy Principal, fill it in and return it to the Deputy with any relevant documentation. The Deputy Principal, along with the relevant Head Teacher, will decide on the outcome of your appeal. Once the decision is made, you have the right of final appeal to the principal.

ACCEPTANCE OF EXCUSE FOR NON-COMPLETION OF ASSESSMENT TASK

A computer / printer failure will not be accepted as a valid excuse for failure to submit due work unless evidence of previous work can be substantiated. A doctor’s certificate on the day of an assessment task that has a hand in component **must be supported by evidence of previous work on that task.**

| |
|--|
| <p>Remember that the responsibility rests on you to get your work in on time.</p> |
|--|

What Happens If I Am Absent on The Day an Assessment Task Is Scheduled?

If you know that you are going to be away on the day of an assessment task, then you **MUST** advise the Deputy Principal in writing, **BEFOREHAND**. The appropriate form is available from the Deputy Principal. Applications for extensions must be completed at **least two school days** prior to the due date. Should an extension not be granted, the task must be submitted on or before the due date. If the extension is declined and the task is submitted late, zero marks will be recorded for the task.

Holidays or attendance at family functions are not valid reasons to miss an assessment task. If you are away unexpectedly then it is **your responsibility** to contact the Deputy Principal, **BEFORE** the commencement of the task.

If the reason for your absence is unsatisfactory, as determined by the Deputy Principal, then a "non-attempt" will be recorded for you on that task. However, if the reason for your absence is valid (e.g., illness supported by a medical certificate or approved leave), then the Faculty Head in consultation with your teacher will decide whether to let you do the assessment task at an alternative time or, award a mark based on a substitute task or give you an estimate based on your performance in similar tasks.

Oral Tasks

You must be present for every lesson until your oral task has been delivered. If you do not attend a lesson without following the procedures in this policy for missing an assessment task, you will receive a mark of zero. This includes circumstances where you are aware beforehand of an absence. If you are aware that you will be absent for a lesson during oral presentations for any reason, including but not limited to appointments or excursions, it is your responsibility to arrange with the Head Teacher to complete your oral presentation before this absence.

It is YOUR responsibility to follow the procedures outlined below.

WHAT TO DO IF

What to do if you know you are going to miss an Assessment Task

- 1) Report to the Deputy Principal with a note from parents/carers and any relevant documentation explaining the situation.
- 2) Complete the "Known Absence from an Assessment Task" form.
- 3) Return the "Known Absence from an Assessment Task" form to the DP.
- 4) Report to the Deputy Principal **before school on the day of your return** to school to organise the completion of their task.
- 5) Complete the task as instructed.

Failure to fulfil these requirements could result in a "non-attempt" being awarded to you for that task.

What to do if you are going to miss an Assessment Task due to illness or misadventure

- 1) Contact the school immediately or when practicable.
- 2) Organise a doctor's certificate or appropriate documentation.
- 3) Report to the Deputy Principal with the appropriate documentation **before school on the day of your return** to school to organise the completion of your task.
- 4) Complete the "Illness and Misadventure Form" form.
- 5) Return the "Illness and Misadventure Form" form to the DP.
- 6) Complete the task as instructed on the day of returning to school.

Failure to fulfil these requirements could result in a "non-attempt" being awarded to you for that task.

Partial Absence or truancy on the date of an assessment task

If a student undertakes an in-class or examination assessment task, but does not attend school that day until the time that the task is scheduled, or truants' class for any or all of the lessons leading up until the time that the task is scheduled, this constitutes an unfair advantage over all of the other students in the course. In these circumstances, a zero will be given initially and the student has the right to lodge an illness or misadventure appeal. If an illness or misadventure appeal is submitted and approved, the mark for the task will replace the zero.

Suspension

Under no circumstances does a suspension from school entitle a student to submit a take home assessment after the due date. It remains the student's responsibility to ensure the task is submitted on the due date.

It is the student's responsibility to notify the Principal/Deputy Principal at the time of suspension that an assessment task is to be completed in class over the period of the assessment. Where appropriate, the student may be asked to complete the task on return from suspension.

| |
|---|
| What Happens If I Am Caught Cheating or Seeking to Gain an Unfair Advantage in An Assessment Task? |
|---|

This is an extremely serious matter as all work done for the assessment is to be essentially your own. NESAs requires incidences of cheating to be recorded on the malpractice register.

If a student has not made a genuine attempt or does not have a valid reason for not completing a task, or an investigation shows that there is evidence of serious malpractice, such as plagiarism and cheating, the principal will rule on the penalty to be imposed which could include a zero mark, a non-attempt or other sanctions.

HSC: All My Own Work

The **HSC: All My Own Work** program is designed to help Higher School Certificate students to follow the principles and practices of good scholarship. This includes understanding and valuing ethical practices when locating and using information as part of their HSC studies.

At Murray High School this program needs to be completed prior to the commencement of the Preliminary Course.

All Students entered for one or more HSC courses with an external examination will be required to have satisfactorily completed **HSC: All My Own Work**.

It is then necessary for ***you to adhere to the principles*** addressed by this program.

What Happens If Tasks Are Not Attempted?

You are expected to complete the tasks that are part of the assessment program. If you fail to hand in an assessment task, both you and your parents will be advised.

If the school rules that you have made a "non-attempt" at assessment tasks in any subject, then it may be ruled that you are not eligible to present that subject for the HSC. In this case, the principal will advise you of the school's decision, the consequences, and your subsequent rights.

To receive a result in each case, you must satisfactorily complete the course. This involves:

- following the course developed or endorsed by NESA
- achieving some or all of the course outcomes
- applying yourself with diligence and sustained effort to the set school tasks.

Non-genuine attempt at assessment tasks

NESA states that its, "*minimum requirement is that the student must make a genuine attempt at assessment tasks that contribute **in excess of 50 percent** of available marks in the course.*" (ACE website) A non-genuine attempt is a piece of work produced with little or no thought or effort, which is generally incomplete, or which has been answered frivolously. A genuine attempt is a piece of work which meets the requirements of the set task, and which has been done to the best of the student's ability.

If a non-genuine attempt is submitted:

- it will be marked and recorded in the assessment records of the course as a non-genuine attempt
- an 'N' Warning letter will be sent home
- parents/caregivers will be notified of the non-genuine attempt and sent a photocopy of the submitted assessment task by the Head Teacher. The task will need to be resubmitted or completed. The original mark will still be recorded.

| |
|---|
| MONITORING PROCEDURES – STUDENT PROGRESS |
|---|

The Department of Education (DOE) Policy

The DOE's "Procedures for the Suspension and Expulsion of School Students" details the circumstances in which students of post-compulsory age [17+] **may be expelled from a school because of unsatisfactory participation in learning**. This will be evident in a documented pattern of anyone (or combinations) of the following:

- non-satisfactory completion of work.
- non-serious attempts to meet course objectives
- non-compliance with NESA requirements for the award of an HSC.

NESA Policy

The satisfactory completion of a course requires principals to have sufficient evidence that the student has:

- *followed the course developed or endorsed by the Board; and*
- *applied themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school, and*
- *achieved some or all of the course outcomes.*
- *made a genuine attempt at assessment tasks, which contribute in excess of 50% of available marks, and*
- *[in a competency - based course] made a genuine attempt to complete the course.*

For individual subjects, specific warnings are issued. NESA requires principals to **issue a minimum of two warnings before a final 'N' determination is made**. If this occurs, then the subject will not appear on the Year 12 Record of Achievement. If a determination reduces the total number of units studied to less than ten, the student will not be eligible for the award of the HSC.

MONITORING PROCEDURES - ATTENDANCE

The NESA policy states that, "For **post-compulsory students**, principals may determine an appropriate attendance pattern(s) that will allow each student to achieve the outcomes of each course being studied. While NESA does not stipulate attendance requirements, principals may determine that, as a result of absence, the course completion criteria may not be met. (ACE website).

Where your attendance becomes a concern, a written warning will be issued. If your attendance continues to be unsatisfactory, the principal will issue a final warning. If after a period of time, typically two weeks, your attendance has not shown improvement, the principal, in following the guidelines of the Department of Education, may expel you. You have the right to appeal this expulsion decision.

Expulsion

You may be expelled for non-satisfactory participation in learning. This means you have not met the outcomes of your courses because of:

- absences, or
- failure to complete course work.

Before an expulsion occurs, you must have received one written warning and been given the opportunity to show improvement. You have the right to appeal a decision to expel you.

Work placement is a mandatory component of VET Industry Curriculum Framework courses. For each 120 hours of course studied students must complete 35 hours of work placement. Failure to complete mandatory work placement will mean that a student will receive an “N” Determination for the VET course where the hours have not been completed.

PROCEDURES TO BE FOLLOWED IF IT’S CONSIDERED THAT YOU ARE NOT MEETING NESA REQUIREMENTS.

THE ‘N’ - WARNING PROCESS

An ‘N’ warning letter lets you know that your performance is unsatisfactory in a particular course. The process is designed to identify if you are an "at risk" student and to provide solutions in the form of school support. It is aimed at helping you rather than excluding you

You will have two weeks to “redeem” yourself by completing the work which is listed on the ‘N’ warning letter. If the work is done in the time the warning is redeemed. If you do not complete the work the warning remains “live” and counts towards an ‘N Determination’ in the course. If you end up with two “live” ‘N’ letters in any one course, you may receive the ‘N Determination’. This means you have unsatisfactorily completed the course. You may appeal the ‘N determination’.

In some cases, the student may then not meet the necessary pattern of study requirements to be eligible for the award of the HSC that year.

Note that an ‘N’ warning letter will include:

- the course
- whether it’s the first or second warning for that course
- the task that was not completed
- the date when the task was initially due
- what you must now do
- when the task is to be done (if that is applicable you may also be told if a zero mark has been awarded)
- a section which should be returned to the Head Teacher.

Note: Only one warning letter is issued for each task. The new due date is final.

Can I Seek A Review of a Rank Awarded to Me Within A Course?

Based on feedback from individual assessment tasks and from formal reports, you will have an expectation as to what your rank should be within a course. If the rank for a particular subject differs significantly from the expected rank, then you can seek a review.

If you are seeking a review, you must apply to the principal who will then inform you about the procedures.

What Happens in The School Review?

The review committee, consisting of a Head Teacher, Deputy Principal and Principal, will meet to decide on any matters relating to your HSC Assessment and especially when a review has been requested. All reviews will be based on whether the assessment program conformed with NESA requirements, whether the school's procedures conformed with its stated program, and whether there were computational or clerical errors.

A Final Note

In order to provide flexibility in dealing with unusual circumstances, the Principal **MAY**, after ensuring that no student is unduly advantaged or disadvantaged by so doing, vary the conditions and requirements in this policy.

MURRAY HIGH SCHOOL

EXAMINATION RULES YEAR 12

Attendance at Trial HSC Year 12 examinations is **compulsory**. Students do not attend roll call. Attendance will be monitored at all examinations.

If you have an illness or misadventure:

- and cannot attend an exam
 - follow the procedure set out in the Assessment Booklet under “What to do if you are going to miss an Assessment Task due to illness or misadventure”
 - Contact the Deputy Principal immediately ph.6025 4711
- before the exam but you can still attend
 - tell Deputy Principal when you arrive
- during an exam and it may have affected your performance
 - tell the Supervising Teacher.

An Absence from Assessment Task form (see Deputy Principal) will need to be completed and alternative arrangements made to complete examinations missed.

Students are to be at school 20 minutes prior to the start of their examinations.

No paper is to be taken into the examination room. All paper required will be issued.

Students are to use black or blue pen to answer questions. Pencils are to be used for diagrams and multiple-choice questions only.

Students are not to have phones/programmable watches/fit bits (or similar devices) in the examination room.

Students may leave equipment at the back of the examination room. No folders, notes or unauthorised electronic devices are to be taken to desks.

Students are to follow all written and verbal instructions from the supervisor.

Students are to bring all of their own equipment (e.g. calculators, rulers, pencils, pens). Borrowing of equipment will not be permitted during examinations.

Students must remain in the examination room until the scheduled completion of the examination.

FULL SCHOOL UNIFORM MUST BE WORN.

When not required for examinations, students may elect to study at home. The library will also be available for this purpose.

- H1.1 analyses the effect of resource management on the wellbeing of individuals, groups, families and communities.
- H2.1 analyses different approaches to parenting and caring relationships.
- H2.2 evaluates strategies to contribute to positive relationships and the wellbeing of individuals, groups families and communities.
- H2.3 critically examines how individual rights and responsibilities in various environments contribute to wellbeing.
- H3.1 analyses the sociocultural factors that lead to special needs of individuals in groups.
- H3.2 evaluates networks available to individuals, groups and families within communities.
- H3.3 critically analyses the role of policy and community structures in supporting diversity.
- H3.4 critically evaluates the impact of social, legal and technological change on individuals, groups, families and communities.
- H4.1 justifies and applies appropriate research methodologies.
- H4.2 communicates ideas, debates issues and justifies opinions.
- H5.1 proposes management strategies to enable individuals and groups to satisfy their specific needs and to ensure equitable access to resources.
- H5.2 develops strategies for managing multiple roles and demands of family, work and other environments
- H6.1 analyses how the empowerment of women and men influence the way they function with society.
- H6.2 formulates strategic plans that preserve rights, promote responsibilities and establish roles leading to the creation of positive social environments.

- H1.1 uses acting skills to adopt and sustain a variety of characters and roles
- H1.2 uses performance skills to interpret and perform scripted and other material
- H1.3 uses knowledge and experience of dramatic and theatrical forms, styles and theories to inform and enhance individual and group devised works
- H1.4 collaborates effectively to produce a group-devised performance
- H1.5 demonstrates directorial skills
- H1.6 records refined group performances work in appropriate form
- H1.7 demonstrates skills in using the elements of production
- H1.8 recognises the value of the contribution of each individual to the artistic effectiveness of productions
- H1.9 values innovation and originality in group and individual work
- H2.1 demonstrates effective performance skills
- H2.2 uses dramatic and theatrical elements effectively to engage an audience
- H2.3 demonstrates directorial skills for theatre and other media
- H2.4 appreciates the dynamics of drama as a performing art
- H2.5 appreciates the high level of energy and commitment necessary to develop and present a performance
- H3.1 critically applies understanding of the cultural, historical and political contexts that have influenced specific drama and theatre practitioners, styles and movements
- H3.2 analyses, synthesises and organises knowledge, information and opinion in coherent, informed oral and written response
- H3.3 demonstrates understanding of the actor-audience relationship in various dramatic and theatrical styles and movements
- H3.4 appreciates and values drama and theatre as significant cultural expressions of issues and concerns in Australian and other societies
- H3.5 appreciates the role of the audience in various dramatic and theatrical styles and movements.

Students in the HSC Engineering Studies course will complete 4 tasks, one of which is the HSC Trial exam. Students will be notified about task details (outcomes, task requirements, rubric and marking guidelines) at least two weeks prior to the due date for the task.

- H1.1 A student describes the scope of engineering and critically analyses current innovations.
- H1.2 A student differentiates between properties of materials and justifies the selection of materials, components and processes in engineering.
- H2.1 A student determines suitable properties, uses and applications of materials in engineering.
- H2.2 A student analyses and synthesises engineering applications in specific fields and reports on the importance of these to society.
- H3.1 A student demonstrates proficiency in the use of mathematical, scientific and graphical methods to analyse and solve problems of engineering practice.
- H3.2 A student uses appropriate written, oral and presentation skills in the preparation of detailed engineering reports.
- H3.3 A student develops and uses specialised techniques in the application of graphics as a communication tool.
- H4.1 A student investigates the extent of technological change in engineering.
- H4.2 A student applies knowledge of history and technological change to engineering based problems.
- H4.3 A student appreciates social, environmental and cultural implications of technological change in engineering and applies them to the analysis of specific problems.
- H5.1 A student works individually and in teams to solve specific engineering problems and in the preparation of engineering reports.
- H5.2 A student selects and uses appropriate management and planning skills related to engineering.
- H6.1 A student demonstrates skills in research and problem solving related to engineering.
- H6.2 A student demonstrates skills in analysis, synthesis and experimentation related to engineering.

Note: Students must submit the Major Work Journal for monitoring with each task

EEX12-1 demonstrates a deep understanding of the dynamic relationship between text, composer, audience and context through the conceptualisation and execution of an extended composition using appropriate mode, medium and technology

EEX12-2 strategically and effectively manipulates language forms and features to create a substantial extended composition for a specific purpose, audience and context

EEX12-3 applies knowledge, understanding and insight, refined through analysis, interpretation, criticism and evaluation of strategically chosen texts, to shape new meaning in an original composition

EEX12-4 undertakes extensive independent investigation to articulate a personal perspective that explores, challenges, speculates or evaluates a significant situation, event or idea

EEX12-5 reflects on and evaluates the composition process and the effectiveness of their own published composition

- 1.1 establishes and maintains communication in French
- 1.2 manipulates linguistic structures to express ideas effectively in French
- 1.3 sequences ideas and information
- 1.4 applies knowledge of the culture of French-speaking communities to interact appropriately
- 2.1 understands and interprets information in texts using a range of strategies
- 2.2 conveys the gist of and identifies specific information in texts
- 2.3 summarises the main points of a text
- 2.4 draws conclusions from or justifies an opinion about a text
- 2.5 identifies the purpose, context and audience of a text
- 2.6 identifies and explains aspects of the culture of French-speaking communities in texts
- 3.1 produces texts appropriate to audience, purpose and context
- 3.2 structures and sequences ideas and information
- 3.3 applies knowledge of diverse linguistic structures to convey information and express original ideas in French
- 3.4 applies knowledge of the culture of French-speaking communities to the production of texts.

- H1 explains the changing nature, spatial patterns and interaction of ecosystems, urban places and economic activity
- H2 explains the factors which place ecosystems at risk and the reasons for their protection
- H3 analyses contemporary urban dynamics and applies them in specific contexts
- H4 analyses the changing spatial and ecological dimensions of an economic activity
- H5 evaluates environmental management strategies in terms of ecological sustainability
- H6 evaluates the impacts of, and responses of people to, environmental change
- H7 justifies geographical methods applicable and useful in the workplace and relevant to a changing world
- H8 plans geographical inquiries to analyse and synthesise information from a variety of sources
- H9 evaluates geographical information and sources for usefulness, validity and reliability
- H10 applies maps, graphs and statistics, photographs and fieldwork to analyse and integrate data in geographical contexts
- H11 applies mathematical ideas and techniques to analyse geographical data
- H12 explains geographical patterns, processes and future trends through appropriate case studies and illustrative examples
- H13 communicates complex geographical information, ideas and issues effectively, using appropriate written and/or oral, cartographic and graphic forms

- H1.1 applies and explains an understanding of the nature and function of information technologies to a specific practical situation
- H1.2 explains and justifies the way in which information systems relate to information processes in a specific context
- H2.1 analyses and describes a system in terms of the information processes involved
- H2.2 develops and explains solutions for an identified need which address all of the information processes
- H3.1 evaluates and discusses the effect of information systems on the individual, society and the environment
- H3.2 demonstrates and explains ethical practice in the use of information systems, technologies and processes
- H4.1 proposes and justifies ways in which information systems will meet emerging needs
- H5.1 justifies the selection and use of appropriate resources and tools to effectively develop and manage projects
- H5.2 assesses the ethical implications of selecting and using specific resources and tools, recommends and justifies the choices
- H6.1 analyses situations, identifies needs, proposes and then develops solutions
- H6.2 selects, justifies and applies methodical approaches to planning, designing or implementing solutions
- H7.1 implements and explains effective management techniques
- H7.2 uses methods to thoroughly document the development of individual and team projects.

- H1.1 investigates industry through the study of businesses in one focus area.
- H1.2 identifies appropriate equipment, production and manufacturing techniques and describes the impact of new and developing technologies in industry.
- H1.3 identifies important historical developments in the focus
- H2.1 demonstrates proficiency in the use of safe working practices and workshop equipment maintenance techniques.
- H3.1 is skilled in sketching, producing and interpreting drawings.
- H3.2 selects and applies appropriate research and problem-solving skills.
- H3.3 applies design principles effectively through the production of projects.
- H4.1 demonstrates competence in practical skills appropriate to the major project.
- H4.2 explores the need to outsource appropriate expertise where necessary to complement personal practical skills.
- H4.3 critically applies knowledge and skills related to properties and characteristics of materials/components.
- H5.1 selects and uses communication and information processing skills.
- H5.2 selects and applies appropriate documentation techniques to project management.
- H6.1 evaluates the characteristics of quality manufactured goods.
- H6.2 applies the principles of quality and quality control.
- H7.1 evaluates the impact of the focus area industry on the social and physical environment.
- H7.2 analyses the impact of existing new and emerging technologies

- H1 identifies and applies legal concepts and terminology
- H2 describes and explains key features of and the relationship between Australian and international law
- H3 analyses the operation of domestic and international legal systems
- H4 evaluates the effectiveness of the legal system in addressing issues
- H5 explains the role of law in encouraging cooperation and resolving conflict, as well as initiating and responding to change
- H6 assesses the nature of the interrelationship between the legal system and society
- H7 evaluates the effectiveness of the law in achieving justice
- H8 locates, selects, organises, synthesises and analyses legal information from a variety of sources including legislation, cases, media, international instruments and documents
- H9 communicates legal information using well-structured and logical arguments
- H10 analyses differing perspectives and interpretations of legal information and issues

- MA12-1 uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2 models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3 applies calculus techniques to model and solve problems
- MA12-4 applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5 applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6 applies appropriate differentiation methods to solve problems
- MA12-7 applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8 solves problems using appropriate statistical processes
- MA12-9 chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10 constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

- MS2-12-1 uses detailed algebraic and graphical techniques to critically evaluate and construct arguments in a range of familiar and unfamiliar contexts
- MS2-12-2 analyses representations of data in order to make inferences, predictions and draw conclusions
- MS2-12-3 interprets the results of measurements and calculations and makes judgements about their reasonableness, including the degree of accuracy and the conversion of units where appropriate
- MS2-12-4 analyses two-dimensional and three-dimensional models to solve practical problems
- MS2-12-5 makes informed decisions about financial situations, including annuities and loan repayments
- MS2-12-6 solves problems by representing the relationships between changing quantities in algebraic and graphical forms
- MS2-12-7 solves problems requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data
- MS2-12-8 solves problems using networks to model decision-making in practical problems
- MS2-12-9 chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
- MS2-12-10 uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

- N6-1.1 recognises and applies functional numeracy concepts in practical situations, including personal and community, workplace and employment, and education and training contexts.
- N6-1.2 applies numerical reasoning and mathematical thinking to clarify, efficiently solve and communicate solutions to problems.
- N6-1.3 determines whether an estimate or an answer is reasonable in the context of a problem, evaluates results and communicates conclusions.
- N6-2.1 chooses and applies appropriate operations with whole numbers, familiar fractions and decimals, percentages, rates and ratios to analyse and solve everyday problems.
- N6-2.2 chooses and applies efficient strategies to analyse and solve everyday problems involving metric relationships, distance and length, area, volume, time, mass, capacity and temperature.
- N6-2.3 chooses and applies efficient strategies to analyse and solve everyday problems involving data, graphs, tables, statistics and probability.
- N6-2.4 chooses and applies efficient strategies to analyse and solve everyday problems involving money and finance.
- N6-2.5 chooses and applies efficient strategies to analyse and solve everyday problems involving location, space and design.
- N6-3.1 chooses and uses appropriate technology to access, organise and interpret information in a range of practical personal and community, workplace and employment, and education and training contexts.
- N6-3.2 chooses and uses appropriate technology to analyse and solve problems, represent information and communicate solutions in a range of practical contexts.

Students in the HSC Music course will complete 4 tasks, one of which is the HSC Trial exam. Students will be notified about task details (outcomes, task requirements, rubric and marking guidelines) at least two weeks prior to the due date for the task.

- H1 performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
- H2 reads. Interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
- H3 improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
- H4 articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
- H5 critically evaluates and discusses performances and compositions
- H6 critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
- H7 understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
- H8 identifies, recognises, experiments with, and discusses the use and effects of technology in music
- H9 performs as a means of self-expression and communication
- H10 demonstrates a willingness to participate in performance, composition, musicology and aural activities
- H11 demonstrates a willingness to accept and use constructive criticism.

- H1 describes the nature, and justifies the choice, of Australia's health priorities.
- H2 analyses and explains the health status of Australians in terms of current trends and groups most at risk.
- H3 analyses the determinants of health and health inequities.
- H4 argues the case for health promotion based on the Ottawa Charter
- H5 explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities.
- H7 explains the relationship between physiology and movement potential.
- H8 explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
- H9 explains how movement skill is acquired and appraised.
- H10 designs and implements training plans to improve performance.
- H11 designs psychological strategies and nutritional plans in response to individual performance needs
- H13 selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity.
- H14 argues the benefits of health-promoting actions and choices that promote justice.
- H15 critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all.
- H16 devises methods of gathering, interpreting and communicating information health physical activity concepts
- H17 selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation.

- PH12-1 student develops and evaluates questions and hypotheses for scientific investigation
- PH12-2 student designs and evaluates investigations in order to obtain primary and secondary data and information
- PH12-3 student conducts investigations to collect valid and reliable primary and secondary data and information
- PH12-4 student selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media
- PH12-5 student analyses and evaluates primary and secondary data and information
- PH12-6 student solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
- PH12-7 student communicates scientific understanding using suitable language and terminology for a specific audience or purpose
- PH12-12 describes and analyses qualitatively and quantitatively circular motion and motion in a gravitational field, in particular, the projectile motion of particles
- PH12-13 student explains and analyses the electric and magnetic interactions due to charged particles and currents and evaluates their effect both qualitatively and quantitatively
- PH12-14 student describes and analyses evidence for the properties of light and evaluates the implications of this evidence for modern theories of physics in the contemporary world
- PH12-15 student explains and analyses the evidence supporting the relationship between astronomical events and the nucleosynthesis of atoms and relates these to the development of the current model of the atom

SCIENCE EXTENSION

| COMPONENTS | Task 1 Poster and oral presentation of research proposal | Task 2 Statistical Case Study | Task 3 Scientific Research Report | TOTAL WEIGHT |
|---|---|-------------------------------------|---|-----------------|
| | T4 Wk 10 | T2 Wk 5 | T3 Wk 6 | |
| Communicating scientifically | 15 | 5 | 10 | 30 |
| Gathering, recording, analysing and evaluating data | 5 | 15 | 10 | 30 |
| Application of scientific research skills | 10 | 10 | 20 | 40 |
| TOTAL WEIGHT | 30 | 30 | 40 | 100 |
| OUTCOMES | SE-1, SE-3, SE-6, SE-7 | SE-4, SE-5, SE-7 | SE-1 – SE-7 | |

- SE-1 refines and applies the Working Scientifically processes in relation to scientific research
- SE-2 analyses historic and cultural observations, ethical considerations and philosophical arguments involved in the development of scientific knowledge and scientific methods of inquiry
- SE-3 interrogates relevant and valid peer-reviewed scientific research to develop a scientific research question, hypothesis, proposal and plan
- SE-4 uses statistical applications, mathematical processes and/or modelling to gather, process, analyse and represent reliable and valid datasets
- SE-5 analyses and applies the processes used in reliable and valid scientific research to solve complex scientific problems and inform further research
- SE-6 analyses and reports on a contemporary issue or an application of science informed by either primary or secondary-sourced data, or both, in relation to relevant publicly available data sets
- SE-7 communicates analysis of an argument or conclusion incorporating appropriate scientific language and referencing techniques in a scientific report

SPORT LIFESTYLE AND RECREATION STUDIES

| COMPONENTS | Task 1 Report on Outdoor Recreation. | Task 2 Designing and Implementing a Sports Coaching and Training Session | Task 3 Individual Games, Sports Applications | Task 4 Sports Administration | TOTAL WEIGHT |
|--|---|--|---|------------------------------------|-----------------|
| | T4 Wk 10 | T1 Wk 10 | T2 Wk 10 | T3 Wk 7 | |
| 1. Knowledge and understanding of the factors that influence health and participation in physical activity | 10 | 5 | 10 | 5 | 30 |
| 2. Knowledge and understanding of the principles and processes impacting on the realisation of movement potential | | 5 | 5 | 10 | 20 |
| 3. The ability to analyse and implement strategies that promote health, physical activity and enhanced performance | 5 | 5 | 10 | 10 | 30 |
| 4. A capacity to influence the participation and performance of self and others. | 5 | 10 | 5 | | 20 |
| TOTAL WEIGHT | 20 | 25 | 30 | 25 | 100 |
| OUTCOMES | 1.1, 1.3, 1.4, 3.6, 4.1, 4.2 | 2.1,2.2,3.1,3.2, 4.2,4.5 | 1.4, 1.5, 3.5, 4.3 | 1.1, 1.6, 4.4 | |

- 1.1 applies the rules and conventions that relate to participation in a range of physical activities
- 1.3 demonstrates ways to enhance safety in physical activity
- 1.4 investigates and interprets the patterns of participation in sport and physical activity in Australia
- 1.5 critically analyses the factors affecting lifestyle balance and their impact on health status
- 2.1 explains the principles of skill development and training
- 2.2 analyses the fitness requirements of specific activities
- 2.3 selects and participates in physical activities that meet individual needs, interests and abilities
- 3.1 selects appropriate strategies and tactics for success in a range of movement contexts
- 3.2 designs programs that respond to performance needs
- 3.5 analyses personal health practices
- 3.6 assesses and responds appropriately to emergency care situations
- 4.1 plans strategies to achieve performance goals
- 4.2 demonstrates leadership skills and a capacity to work cooperatively in movement context
- 4.3 makes strategic plans to overcome the barriers to personal and community health
- 4.4 recognises the skills and abilities required to adopt roles that support health, safety and physical activity

SOCIETY AND CULTURE

| COMPONENTS | Task 1 PIP Planning and Presentation | Task 2 Core-Social and cultural Continuity and Change | Task 3 Depth Studies Essays | Task 4 Trial HSC Exam | TOTAL WEIGHT |
|--|---|---|--------------------------------------|--|-----------------|
| | T4 Wk 8 | T1 Wk 9 | T2 Wk 9 | T3 Wk 4-5 | |
| Knowledge and understanding of course content | | 10 | 10 | 15 | 35 |
| Application and evaluation of social and cultural research methods | 15 | | 5 | 15 | 35 |
| Communication of information, ideas and issues | 5 | 10 | 5 | 10 | 30 |
| TOTAL WEIGHT | 20 | 20 | 20 | 40 | 100 |
| OUTCOMES | H1,H3,H4,H5, H6,H7,H8 | H1,H3,H5,H9, H10 | H2,H3,H5,H6, H10 | H1,H2,H3,H4, H5,H6,H7,H8, H9,H10 | |

- H1 evaluates and effectively applies social and cultural concepts
- H2 explains the development of personal, social and cultural identity
- H3 analyses relationships and interactions within and between social and cultural groups
- H4 assesses the interaction of personal experience and public knowledge in the development of social and cultural groups
- H5 analyses continuity and change and their influence on personal and social futures
- H6 evaluates social and cultural research methods for appropriateness to specific research tasks
- H7 selects, organises, synthesises and analyses information from a variety of sources for usefulness, validity and bias
- H8 uses planning and review strategies to conduct ethical social and cultural research that is appropriate for tasks ranging from the simple to the complex
- H9 applies complex course language and concepts appropriate for a range of audiences and contexts
- H10 communicates complex information, ideas and issues using appropriate written, oral and graphic forms

SOFTWARE DESIGN AND DEVELOPMENT

| COMPONENTS | RAD Project | Structure Project | Major Software Group Project | Trial HSC Exam | TOTAL WEIGHT |
|---|--|--|---------------------------------------|----------------|--------------|
| | T4 Wk 6 | T1 Wk 8 | T2 Wk 10 | T3 Wk 4-5 | |
| Knowledge and understanding of course content | 5 | 10 | 10 | 25 | 50 |
| Knowledge and understanding in the design and development of software solutions | 10 | 15 | 20 | 5 | 50 |
| TOTAL WEIGHT | 15 | 25 | 30 | 30 | 100 |
| OUTCOMES | H1.2 H3.2 H4.1,H5.1 H5.2,H6.4 | H1.1,H3.2, H4.2,H5.1, H5.2, H6.4 | H1.2,H3.2, H4.2,H5.1, H5.2,H6.4 | All | |

- H1.1 explains the interrelationship between hardware and software
- H1.2 differentiates between various methods used to construct software solutions
- H1.3 describes how the major components of a computer system store and manipulate data
- H2.1 describes the historical development of different language types
- H2.2 explains the relationship between emerging technologies and software development
- H3.2 constructs software solutions that address legal, social and ethical issues
- H4.1. Identifies needs to which software solutions are appropriate
- H4.2 applies a modular approach to implement well-structured software solutions and evaluates their effectiveness
- H5.1 applies project management techniques to maximise the productivity of the software development
- H5.2 creates and justifies the need for the various types of documentation required for a software solution
- H5.3 selects and applies appropriate software to facilitate the design and development of software solutions
- H6.1 assesses the relationship between the roles of people involved in the software development cycle
- H6.2 communicates the processes involved in a software solution to an inexperienced user
- H6.3 uses a collaborative approach during the software development cycle
- H6.4 develops effective user interfaces in consultation with appropriate people

VISUAL ARTS

| COMPONENTS | Processes of Body of Work | Mid-Course exam | Processes of Body of Work | Trial HSC Exam | TOTAL WEIGHT |
|---------------------------------|----------------------------|-----------------------|----------------------------|-----------------------|--------------|
| | T4 Wk 10 | T1 Wk 10 | T3 Wk 1 | T3 Wk 4-5 | |
| Development of the Body of Work | 20 | | 30 | | 50 |
| Art Criticism and Art History | | 20 | | 30 | 50 |
| TOTAL WEIGHT | 20 | 20 | 30 | 30 | 100 |
| OUTCOMES | H1 H5 H2 H6 H3 H4 | H7 H8 H9 H10 | H1 H5 H2 H6 H3 H4 | H7 H8 H9 H10 | |

- H1 initiates and organises art making practice that is sustained, reflective and adapted to suit particular conditions.
- H2 applies their understanding of the relationships among the concepts of artist, artwork, world and audience through the making of a body of work.
- H3 demonstrates an understanding of the frames when working independently in the making of art.
- H4 selects and develops subject matter and forms in particular ways as representations in art making.
- H5 demonstrates conceptual strength in the production of a body of work that exhibits coherence and may be interpreted in a range of ways.
- H6 demonstrates technical accomplishment, refinement and sensitivity appropriate to the artistic intentions within a body of work.
- H7 applies their understanding of practice in art criticism and art history.
- H8 applies their understanding of the relationships among the artist, artwork, world and audience.
- H9 demonstrates an understanding of how the frames provide for different orientations to critical and historical investigations of art.
- H10 constructs a body of significant art histories, critical narratives and other documentary accounts of representation in the visual arts.

VISUAL DESIGN

| COMPONENTS | Task 1 IED2: Stage Sets and Props | Task 2 GD1: Publications and Information | Task 3 IED1: Structures and Environments | Task 4 GM: Individual Design Project | TOTAL WEIGHT |
|---|--|--|---|--|-----------------|
| | T4 Wk 9 | T1 Wk 7 | T2 Wk5 | T3 Wk 7 | |
| Knowledge, skills and understanding through the making of works in design that lead to and demonstrate conceptual and technical accomplishment. | 15 | 15 | 20 | 20 | 70 |
| Knowledge, skills and understanding that lead to increasingly accomplished critical and historical investigations of design. | 5 | 10 | 5 | 10 | 30 |
| TOTAL WEIGHT | 20 | 25 | 25 | 30 | 100 |
| OUTCOMES | DM1, DM2, DM3, DM4, DM5 CH1, CH2, CH3, CH4 | DM1, DM2, DM3, DM4, DM5 CH1, CH2, CH3, CH4 | DM1, DM2, DM3, DM4, DM5 CH1, CH2, CH3, CH4 | DM1, DM2, DM3, DM4, DM5 CH1, CH2, CH3, CH4 | |

- DM1 generates a characteristic style that is increasingly self-reflective in their design practice
- DM2 explores concepts of artist/designer, kinds of designed works, interpretations of the world and audience/consumer response in their making of designed works
- DM3 investigates different points of view in the making of designed works
- DM4 generates images and ideas as representations/simulations
- DM5 develops different techniques suited to artistic and design intentions in the making of a range of works
- DM6 takes into account issues of Work Health and Safety in the making of a range of works
- CH1 generates in their critical and historical practice ways to interpret and explain design
- CH2 investigates the roles and relationships among the concepts of artist/designer, work, world and audience/consumer in critical and historical investigations
- CH3 distinguishes between different points of view, using the frames in their critical and historical investigations
- CH4 explores ways in which histories, narratives and other accounts can be built to explain practices and interests in the fields of design.

WORK STUDIES

| COMPONENTS | Task 1 Module 6 Budget Task | Task 2 Module 4 Teamwork Testing | Task 3 Module 7 Performance Appraisal | Task 4 Module 5 Work-Life Balance Schedule & Analysis | TOTAL WEIGHT |
|-----------------------------|-----------------------------------|---|--|--|-----------------|
| | T4 Wk 8 | T1 Wk 9 | T2 Wk 7 | T3 Wk 6 | |
| Knowledge and Understanding | 5 | 10 | 10 | 5 | 30 |
| Skills | 20 | 15 | 15 | 20 | 70 |
| TOTAL WEIGHT | 25 | 25 | 25 | 25 | 100 |
| OUTCOMES | 5, 8, 9 | 2, 5, 6 | 2, 7, 9 | 5, 6, 8 | |

1. Investigates a range of work environments
2. Examines different types of work and Skills for employment
3. Analyses employment options and strategies for career management
4. Assesses pathways for further education, training and life planning
5. Communicates and uses technology effectively
6. Applies self – management and teamwork skills
7. Utilises strategies to plan, organise and solve problems
8. Assesses influences on people’s working lives
9. Evaluates personal and social influences on individuals and groups

HSC ASSESSMENT ADVICE FOR VET COURSES

Assessment in VET courses is competency based. This means that you need to demonstrate that you have gained and can apply the specific knowledge and skills for the unit of competency to be deemed competent in that unit. Evidence of competence will be collected in a variety of ways including written tasks, practical demonstration, portfolio or assignments. You will be deemed “Competent” if performance in all required assessment activities for the unit of competency is satisfactory or Not Competent if you are still developing skills and/or your performance is at an unsatisfactory level.

There is no pass or fail. This means that a course mark is not allocated. For this reason, the assessment schedule for HSC VET courses is in a different format to other NESA Courses.

Formal assessment will be scheduled only when you have developed the necessary skills and underpinning knowledge to demonstrate competency.

Your trainer will keep an outcome record of units of competency. You may request to see this record at any time to determine your progress. Alternately you will be supplied with a competency log for maintaining a record of units achieved. You are entitled to seek advice about options for further training and assessment for competencies ‘not achieved’. Refer to the Student Guide for additional advice. You will also receive a report from the school each semester indicating competency achievement. Competencies cannot be recorded without the sufficient assessment evidence.

The achievement of competency in the units of competency as stated in the Training and Assessment Strategy (TAS) will lead to a Certificate at AQF level I, II or III or a Statement of Attainment towards the AQF qualification. A digital transcript will be issued by the NSW Education Standards Authority (NESA) on behalf of Public Schools NSW Wagga Wagga, Registered Training Organisation (RTO) 90333 for successful completion. Refer to your NESA Student Online profile for more information.

Recognition of Prior Learning (RPL) on the Wagga Wagga RTO RPL form with the portfolio of evidence relevant to each unit of competency for which RPL is requested. The RPL form and evidence portfolio must be submitted to your trainer prior to course commencement who will forward it to the RTO manager for review.

Credit Transfer (CT) may be given for a unit of competency (UoC) previously achieved with another RTO after verification of the UoC. Seek CT advice from your trainer, who will contact the RTO, prior to the commencement of the delivery of this UoC.

N Determination letters will be issued to students who do not demonstrate due diligence and sustained effort in the course, participate in mandatory work placement and or apply themselves to course outcomes. This process may then lead to an “N” determination for this subject which may prevent the achievement of the HSC. Warning letters will not be issued for failure to achieve competency but are about fulfilling the requirements of learning for the HSC.

Work placement is a mandatory HSC component in some courses and must be completed during the course. (Refer to the specific course assessment summary for more detailed information).

- you will not be permitted to participate in a work placement if you are not deemed ‘work ready’ by your trainer.
- a ‘N’ determination will be issued if work placement is not satisfactorily completed. This means that the course will not count towards your HSC pattern of study. However, you will still receive a Certificate or Statement of Attainment which indicates one or more unit/s of competency achieved towards the qualification.
- the scheduled date for work placement is shown in the course assessment summary.
- you will complete a workplace journal of your placement.

Work placement advice from NESA in response to COVID

<https://educationstandards.nsw.edu.au/wps/portal/nesa/about/news/novel-coronavirus/vet-work-placement>

HSC Examination is only available in some VET courses. (Refer to the NESA course outline and the specific course assessment summary for detailed information).

- Optional for students completing the 240 hour course and is intended for Australian Tertiary Admissions Rank (ATAR) purposes only. (Refer to the specific course assessment summary for more detailed information).
- Independent of the competency based assessment requirements for the Australian Qualifications Framework (AQF) VET qualification. The satisfactory completion of the course will still appear on your HSC if the optional exam is not undertaken.

If you intend to use your VET course towards the calculation of the ATAR, the school must submit an estimated mark of your likely performance in the HSC examination. The calculation of the mark is a school decision and will include the Trial HSC examination. This mark is only used in the event of misadventure.

Assessment Summary for CPC20211 Certificate II in Construction Pathways

| | |
|--|----------------------------|
| Requirements for HSC purposes | Dates |
| Work Placement (compulsory for the HSC) 70 hours in total | Year 12 – Term 2 Weeks 2-3 |
| Trial HSC exam - Students whose HSC pattern of study makes them eligible to receive an ATAR must sit the trial HSC exam. | Trial Examination Week |

| Assessment Plan | | | Evidence Collection | | | HSC |
|---|----------------------------|---|---|---|---|--------------------------|
| Cluster | Competency codes | Title of competency | Direct observation – real time, simulated environment | Product based method – structured activities e.g. role plays, work samples, presentation, reports | Questioning – written or oral related to knowledge e.g. quizzes, interviews | NESA Status Mandatory |
| Cluster 1 – Working safely in the construction industry | CPCCOHS2001A | Apply OHS requirements, policies and procedures in the construction industry (Core) | X | | X | Y |
| Cluster 2 – Carpentry Basics | CPCCCA2011A CPCCCA2002B | Handle carpentry materials (B) Use carpentry tools and equipment (B) | X | X | X | - ** |
| Cluster 3 – White Card | CPCCWHS1001 | Prepare to work safely in the construction industry (Imported) | X | X | X | Y |
| Cluster 4 - Levelling | CPCCCM2006B | Apply basic levelling procedures (H) | X | X | X | - |
| Cluster 5 – Reading plans | CPCCCM2001A | Read and interpret plans and specifications (Core) | | X | X | Y |
| Cluster 6 – Prepare for concreting | CPCCCA2003A CPCCCM1015A | Erect and dismantle formwork for footings and slabs on ground (B) Carry out measurements & calculations (Core) | X | X | | - Y |
| Cluster 7 - Group Project | CPCCCM1013A CPCCCM2004A | Plan and organise work (Core) Handle construction materials (H) | X | X | X | Y - |
| Cluster 8 - Skills into action | CPCCCM1012A CPCCCM1014A | Work effectively and sustainably in the construction Industry (Core) Conduct workplace communication (Core) | | | X | Y Y |
| Choose Option 1 OR Option 2 in Cluster 9 to gain the qualification and be eligible for the HSC | | | | | | |
| Cluster 9 – Option 1 - Joinery | CPCCJN2001A CPCCJN2002B | Assemble components (F) Prepare for off-site manufacturing process (F) | X | X | X | - - |
| Cluster 9 – Option 2 - Brick and blocklaying | CPCCBL2001A CPCCBL2002A | Handle and prepare bricklaying and blocklaying materials (A) Use bricklaying and blocklaying tools and equipment (A) | X | X | X | - - |

** [CPCCCM2005B](#) Use construction tools and equipment – syllabus content to be delivered.

You must satisfactorily meet all the requirements of the VET qualification as stated in the TAS to achieve the CPC20211 Certificate II in Construction Pathways. The Statement of Attainment towards CPC20211 Certificate II in Construction Pathways will be the possible AQF outcome if at least one UoC has been achieved.

GLOSSARY OF KEY WORDS

Syllabus outcomes, objectives, performance bands and examination questions have key words that state what students are expected to be able to do. A glossary of key words has been developed to help provide a common language and consistent meaning in the Higher School Certificate documents.

Using the glossary will help teachers and students understand what is expected in responses to examinations and assessment tasks.
